Tiger Codes

São Paulo, Brazil
02/2020 – Present

AllShifts

Remote
02/2022 – 06/2023

Web Designer and Front-End Developer

Customer-oriented Web Designer with strong history of leading high performance team to meet or exceed objectives, developing interactive and responsive websites and producing wireframes and detailed layered Photoshop graphics. Dedicated and hardworking with internal drive to deliver excellence.

Founder and Educator

Teaching front end development to brazilian front-end community, I have created an ecosystem of practical resources for developers with more than 50,000 followers in social media such as YouTube and Instagram. In addition, I have worked as UX Designer, UI Designer, Writer, Technical Support, Customer Service, Digital Marketing and Video Editor. Tiger Codes is an one-man show.

Front-End Software Engineer

Utilized JavaScript, React, HTML/CSS and other modern tools to build user interfaces and experiences used within the AAHCS AllShifts app.
