Web Designer and Front-end Developer

Customer-oriented Web Designer with strong history of leading high performance team to meet or exceed objectives, developing interactive and responsive websites and producing wireframes and detailed layered Photoshop graphics. Dedicated and hardworking with internal drive to deliver excellence.

Front-end Engineer and Founder

Teaching front end development to brazilian front-end community, I have created an ecosystem of practical resources for developers with more than 50,000 followers in social media such as YouTube and Instagram. In addition, I have worked as UX Designer, UI Designer, Writer, Technical Support, Customer Service, Digital Marketing and Video Editor. Tiger Codes is an one-man show.

Senior Front-end Developer, CTO and Co-founder

Customer-oriented Web Applications with focus in making the relationship between customers and developers very easy. Creating software easy and fun to use.
